

Who we are

Owner Tom Stefanik and his dedicated team of certified technicians have decades of experience installing and servicing 3rd party computer equipment. His story begins in 1996. Tom saw the need to fill a gap where company IT departments did not have the resources to properly service and maintain their equipment.

Tom began assisting companies in the selection, installation, maintenance and repair of the company's vital assets. Today, his business has now grown and has been expanded. Tom and team launched Choice ATMs & Smart Safes, to provide retail businesses with a total cash management solution. This includes onsite equipment placement survey, installation, service and repair of ATMs, Smart Safes and Cash Recyclers.

Choosing Choice ATMs & Smart Safes as your technology solutions provider is choosing quality as your priority. We take your business needs seriously by providing high quality service in a fast and efficient manner. We provide phone and onsite support for our clients, allowing our clients to feel satisfied with their investment and partnership with Choice ATMs & Smart Safes.

CorPoint™ Deposit Manager

Meet the Next-Generation in
Cash Management for Merchants

Our commitment to delivering the leading customer-centric technology and services makes us your ideal partner for cash supply chain management.

CorPoint™ Deposit Manager

KEY BENEFITS

- **Smart Safe hardware-agnostic**
- **Compatibility with any armored carrier you choose**
- **Deposit visibility for all your retail locations**
- **Business intelligence analytics**
- **Reduced shrinkage and theft**
- **Reduced employee risk**
- **Simplified in-store cash operations and deposit reconciliation**
- **Reduced transportation expenses**
- **Option for daily provisional credit which improves cash flow and availability**

At specified intervals, smart safe devices send encrypted electronic deposit information to Deposit Manager, which sends the encrypted electronic deposit posting information to a financial institution for provisional credit.

The Deposit Manager Advantage

Deposit Manager offers elite deposit management tracking while providing efficiencies and business intelligence analytics.

It improves deposit visibility for any size organization. The

solution is available as a standalone or hosted software service.

Powerful Cash Management Solutions

As the only provider of consulting expertise and technology solutions across the entire cash supply chain, Choice ATMs & Smart Safes is uniquely positioned to help your organization drive down costs and focus on your business.

CorPoint™ Deposit Manager Next-Generation in Cash Management

Cash is still the preferred payment method in more than half of all retail transactions worldwide. Managing the flow of cash, however, remains both labor- and risk-intensive for many retailers, eroding profitability and efficiency.

Retail Cash Management Solutions

Manually collecting and counting cash for deposit is labor-intensive, error-prone and does not provide an easy way to reconcile store totals with your bank's deposit verification. Reconciliation is often performed days in arrears. This environment does little to ensure against cash shrinkage and theft.

Managing these processes for multiple locations only magnifies these challenges.

Deposit Intelligence and Cash Control

CorPoint™ Deposit Manager is an advanced, integrated cash deposit solution that streamlines deposit handling.

As retail personnel deposit cash into “smart safe” hardware devices, the solution allows managers to track the status of cash deposits and view detailed information for each retail location (for example, denominations and cashier totals).

Deposit Manager is designed to be hardware and armored carrier-agnostic, providing the flexibility to choose the vendor relationships that best fit your unique business challenges.

Remote Cash Capture Management

Using the full functionality of the software, Deposit Manager allows you to deploy the same smart safe hardware device across your enterprise, regardless of the armored transportation providers used.

Smart safe technology streamlines cash operations, automates cash counting, reconciles with the point-of-sale and balances to the cashier level.

In this way, the solution improves security, increases cash availability, provides fingertip balance and reconciliation reporting and helps reduce transportation costs.

Deposit Manager works with any armored car service without integration or technology challenges and connects to any number of certified smart safe devices in each of your locations.

The solution can also be configured to facilitate a single banking relationship for all retail locations. Merchants can receive same-day provisional credit for cash deposited into the smart safe.
